

Make a beautiful beetle

- Thread pipe cleaner legs through the main body shape.
- Secure pipe cleaners with paper tape.
- Turn over the body and stick the metallic paper over the pipe cleaners to form the top body.
- Stick wings on to the body as shown.
- Decorate wing case on top of the wings as shown.
- Decorate wing case. You can use the foil transfer to create a metallic effect or draw patterns with the pencils provided.
- Fold the head back along the crease to make it appear more 3D in form.
- Mini pom poms can be used to make eyes or you can draw your own.

How to use the foil transfer:

- Apply glue stick to the area you would like the metallic effect to appear.
- Place the foil on top with the shiny surface facing you.
- Scribble on top with a pencil to make the foil stick to the glue.
- Carefully pull the foil away and you will see a metallic effect on the paper.
